Eliza,

Sorry for the late reply! We would be happy to consider alternate dates if we can get some more eyes on this important report. Dr. Sarah Taber, who authored the report will be attending along with Ms. Hanah Ehrenreich. (just one N in Hanah) If the 6th doesn't work for the staff you had in mind, let's look at the 8th, 15th, 18th or 22nd of December.

I have attached the report for you to review, and we will also bring some supplemental materials to the meeting.

Have a great afternoon!

Maria,

Sorry for the back to back emails. When I sent the calendar invite to our team, I got responses from two people who will be unavailable to join and they'd really like to be present. Not to mention, they're our key environmental/energy folks.

Is there any way to revisit potential dates? Sorry for any complications or confusion. Please let me know if this is a possibility and I will try to send some good times for everyone on our team.

Additionally, if possible, staff would like to have the report to review beforehand so they're prepared to discuss any questions during the meeting. Let me know if you could provide an electronic copy in advance.

Thanks for your help coordinating this.

Eliza
